GEN iii MOUNTING BRACKET

MODEL	DESCRIPTION
T0118-001	<p>GEN iii bracket:</p> <p>This new laser cut and pressed bracket is available in plated steel, Stainless steel and Aluminum. The design allows for quick fit with a key slot holes for fixing the bracket to walls, ceiling etc. These brackets are ideal for truck mount applications where the user does not need the reel to swing from side to side as well as those typical lubrication installations where rows of reels are mounted side by side in a fixed position.</p>
