

# GEN III | SG Range

## Breathing Air Reels

Gen III breathing air reels are ideally suited for supplying breathing grade air to air fed respirators to better manage the supply hose making it safer for the operator particularly in confined work areas. This reel can also be used for shallow diving applications.

## Lubrication Reels

Lubrication reels are the ideal solution for light duty oil and grease transfer applications.

## Garden Reels

The garden reel is the perfect solution to keep your garden looking great. No more tangles or having to fight the hose every time you water the garden or wash the car. The reel comes complete with a 2-m side connection hose and inlet fitting.

## Barrier Reels

Fitted with 20 metres of 50mm wide woven webbing (safety orange) the barrier reel is the ideal way to quickly & efficiently set up personnel safety barriers for areas that require regular guarding.

# GEN IV

SG Range

### Corrosion proof composite material

The Recoila GEN IV is the ideal solution for small to medium workshop applications, where the size of the reel is important or short hose lengths are all that is required. The GEN IV is manufactured from tough corrosion proof composite materials and extensive tests have shown it to be highly resistant to the vast majority of acids and alkalis. Typical uses for the GEN IV are: service van's, under bench applications, assembly lines, etc. Each GEN IV is supplied complete with a 1.5m connection hose.

### FEATURES & BENEFITS

#### High Quality Roll Formed Spring

The GEN IV boasts a high quality roll formed drive spring which virtually eliminates the possibility of drive spring failure due to micro cracks which occur on standard slit edge drive spring used on many hose reels.

#### Multi Position Locking Mechanism

The GEN IV has a unique multi position locking mechanism that provides a complete, positive retraction every time.

#### Modern Composite Materials

Manufactured from high grade virgin materials ensuring strength and longevity. UV stabilisers are added to offer extra protection against UV light reducing the possibility of hardening and cracking.

#### Mounting Brackets & Bosses

The three piece mounting system enables the reel to be attached and detached while the wall plate stays fitted in place.
